MEDIA ADVISORY

DATE: FRIDAY 3RD JUNE, 2016

Keys and the securing of keys are a very important and integral aspect of Prison Duties. During regular checking duties this morning it was revealed that a bunch of keys were missing.

After thorough searches and investigations it was determined exactly who was the officer responsible for the missing keys.

The officer was called into the Commissioner's office and was interrogated by both senior Prison Officials and the Police.

The keys have since been recovered but the enquiry into the incident is continuing. The public is hereby advised that, as per procedure, steps have been taken to ensure the continued integrity of the security of the Prison following this incident.

The Trinidad and Tobago Prison Service remains committed at all costs to the protection of society, public safety and crime prevention.
